Anything thereby created or compiled may be integrated into the products and services of the Licensee and the Institutions. Metadata may be integrated into any other library and information system (including but not limited to search engines of commercial corporations provided that the Metadata is not sold, lent, re-licensed, or distributed in any manner that violates the terms and conditions of the Licence Agreement). Text and data mining may be performed on the unchanged Licensed Material or on extracted data (including but not limited to reproducing, storing, adapting, assembling large

collections or extracting substantial portions of data and analysing them). The raw data is research data and may be stored, published and distributed in any medium or form under any licence in order to ensure reproducibility and sustainability, as long as the Licensed Material cannot be reconstructed in its original, human readable form. The Publisher will cooperate with Licensee and Institutions as reasonably necessary in making the Licensed Material available in a manner and form most useful to the Licensee and Contractually Defined Users. Attribution must be made to the Publisher in an appropriate manner and form.

d. Supply to a user of another library (whether by post, fax or secure electronic transmission) a single copy of an electronic original of an individual document including any supplementary content published in connection to the document.

e. Run test routines, verifying access to all licensed items. Testing conditions will be clearly defined. Usage generated by test runs will not be part of the usage statistics delivered. The Licensee may commission third parties to perform such measures.

f. Allow Contractually Defined Users to:

- Make such local temporary copies of the Licensed Material as are necessary to ensure efficient use of the Licensed Material, provided that such use is subject to all the terms and conditions of this Licence Agreement;
